	14:00-16:00	Course summarization, Discussion and Q & A	· Course Summarization, discussion on the main issues in each city, and question and answer on the materials learned

Every year, the Tokyo Metropolitan Government Bureau of Waterworks accepts large numbers of trainees and inspection visits. Last fiscal year alone, the bureau welcomed 425 trainees or inspection visitors from 47 countries or territories including 17 people from two member cities in the Asian Network of Major Cities 21. The bureau is able to provide training for the time period and details requested by each respective city.
