6 Seminar outline/scenes	<p>High-Precision Radiotherapy Course</p> <ol style="list-style-type: none"> 1 Examination of high-precision radiotherapy equipment 2 Operation and demonstration of high-precision radiotherapy equipment 3 Discussions in case conferences <p>Bone Marrow Transplant Course</p> <ol style="list-style-type: none"> 1 Outline of hematopoietic cell transplants and coordination method 2 Prevention of post-transplant complications 3 Shadowing training on related wards <p>※See separate schedule for details</p>

7 Results

- Participants and the hospital staff inspired each other and shared their knowledge.
- It was beneficial to learn the differences of management and implementation in the medical workplace in different cities, and have discussions with a doctor and a nurse from these cities.
- The Komagome hospital staff also learned so much from two enthusiastic and motivated participants.

The high-precision radiation therapy course
Dr. David Tan Boon-Harn

The bone marrow transplantation course
